

A wide-angle photograph of the Columbus skyline at dusk. The Ohio Statehouse is prominent in the center, with its white facade and many lit windows. To its left is the tall, dark, cylindrical tower of the Columbus Tower. Other various skyscrapers and buildings are visible in the background, their lights reflecting on the water in the foreground. A bridge with multiple arches spans the river in the middle ground.

CITY OF COLUMBUS WEBINAR

PROPOSED BUILDING PERFORMANCE STANDARDS

Participants will gain insight into anticipated energy reduction goals, potential cost savings, and strategies for maintaining healthy, efficient buildings. Just as importantly, this webinar offers a platform for industry professionals to share feedback, voice concerns, and help ensure that future policies reflect real-world operational needs.
